SAPPORO CONVENTION CENTER

Sapporo Convention Center: Delivering "success and inspiration"

Sapporo Convention Center, guided by the concept "Connecting Hearts, Resonating Together," serves as a core MICE facility in Sapporo, a city that blends rich natural surroundings with international urban functions. Since opening in 2003, it has hosted a wide range of events, including international conferences, academic meetings, exhibitions, and incentive programs. With approximately 20,000 square meters of floor space, the Center offers spacious, light-filled areas inspired by Hokkaido's natural beauty.

The Center has achieved LEED O+M Gold certification—the first for an existing MICE facility in Japan—demonstrating excellence in energy efficiency, resource management, and sustainable operations. It also promotes environmental initiatives such as renewable energy use and solar power adoption. In addition, the facility holds GBAC STAR™ certification, ensuring globally recognized standards in hygiene, cleaning, and risk management, and providing a safe and reliable environment for all events.

Appeal of Sapporo MICE

Where nature meets urban functionality

In Sapporo, the vibrant natural surroundings coexist with urban functionality. The city's seasonal landscapes serve as striking backdrops for MICE events and create unforgettable experiences for attendees. Enjoy the amenities of urban comfort in the beauty of nature.

Colorful range of activities

Sapporo offers a variety of activities to enjoy surrounded by stunning seasonal landscapes throughout the year. With skiing or snowboarding in the winter and hiking or golfing in the summer, there is no shortage of options available for unwinding after a MICE event.

Rich food culture

Sapporo combines the rich bounty of nature with food cultural diversity. Indulge in local specialties such as bowls of seafood, Jingiskan (barbecued mutton or lamb), ramen, and soup curry, and discover Hokkaido's unique food culture.

Sustainability

As a member of the GDS-Movement, an international environmental benchmarking program, Sapporo offers a sustainable urban environment for hosting MICE events.
